

Motor Sports - simple scoreboards examples

LEDsynergy has become a market leader in the field of programmable Electronic LED Displays and Scoreboards and we are able to offer our customers a vast range of displays to meet an ever increasing variety of customer requirements, both standard or bespoke scoreboards.

Our LED scoreboards look stunning in any sports stadia or arena and of course scoring and timing is delivered both accurately and effectively to a large number of spectators.

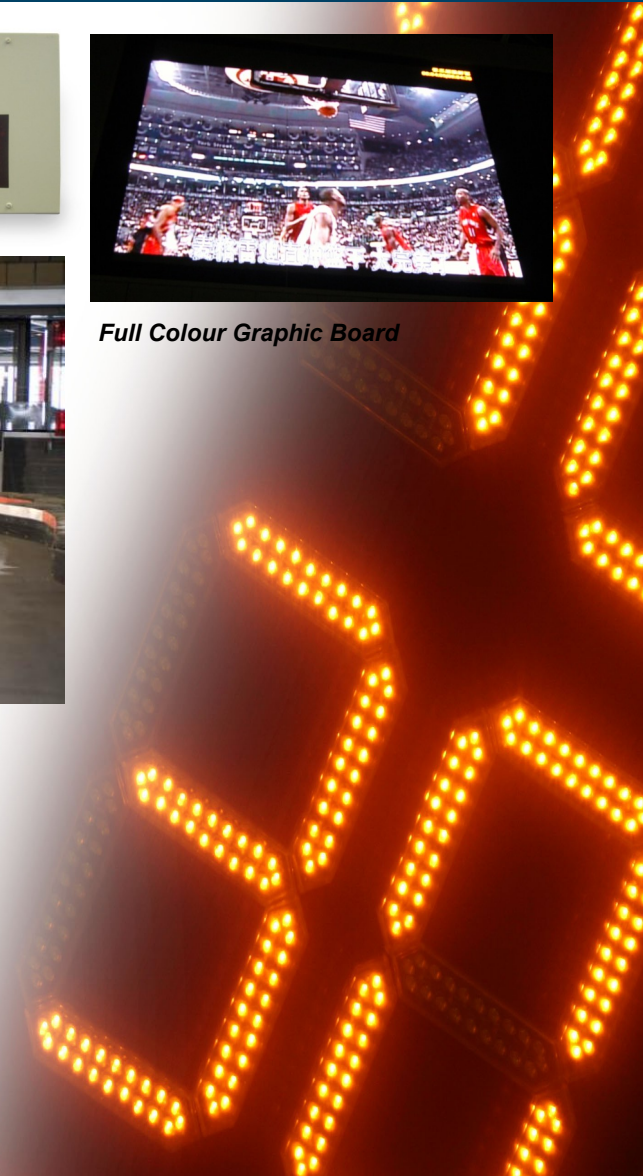

Full Colour Graphic Board

Photo above shows a multi line display with positions, names, laps etc.

Many different options and sizes are available for the LED characters and LED digits with both single line or Multi line for Indoor or outdoor use

LED SCOREBOARDS

Numerical

We can supply a range of numeric scoreboards, with some examples shown on the right. The digits themselves are LED with the driver numbers in static lettering.

Alphanumeric

Alternatively, we can supply a range of alphanumeric scoreboards. This gives you much more flexibility and the display can also be used for information or advertising use as well.

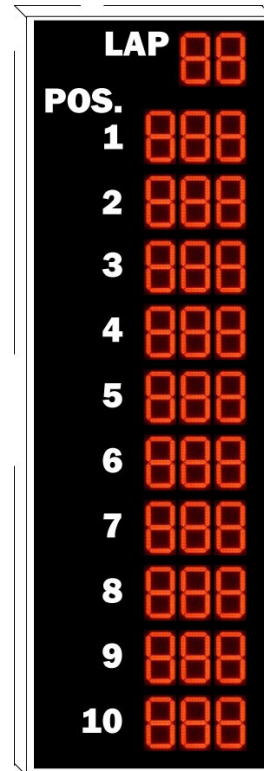

Full Colour Graphic Boards

The top of the range is a Full Colour LED Graphic board which gives you total flexibility of use for scores, information advertising and full video use with playback.
